EDUCATION

Master of Science, Petroleum Engineering
 GPA:4.0
 Texas Tech University, Lubbock, TX
 8/2025 – 5/2027

Bachelor of Science, Mechanical Engineering
 Minor, Mathematics
 Texas Tech University, Lubbock, TX
 1/2001 - 5/2004

SKILLS

Programming: C#, C++, Cuda, C, VBA, R, SQL, Matlab, Python, HTML, JavaScript, Data Analysis, Mining, PostgreSQL, Apache Thrift, Spotfire, R Studio, Machine Learning, Neural Networks, PostgreSQL

CAD: FreeCAD, Blender, SolidWorks

Software: Windows 11, Ubuntu, Excel, Word, PowerPoint, Access etc.

Automotive: Import/Domestic Engine Cylinder Head Machining, Full Engine Disassembly & Assembly

Oil & Gas: Hydraulic Fracturing, Geology, Petrophysics, Cement, Coiled Tubing, WAG Flooding, Conformance, Reservoir Simulation, Production & Economic Optimization, Gohfer|FracPro PT, PredictK, Materials Library, IFS, HalWin, Geolog, Prizm, Landmark, Petrophysics, Fekete R.T.A. & Well Test, Landmark Nexus, Quiklook, Landmark DecisionSpace, TerraVista, PDAT

EXPERIENCE

Texas Tech University

Graduate Research Assistant Lubbock, TX 1/15/2026 - Current

Nindra

Lead Engineer & Developer Houston, TX 4/2019 - 1/2026

Halliburton

Global Senior Technical Advisor Houston, TX 11/2017 - 4/2019
 North America Technology Advisor Houston, TX 7/2015 - 11/2017
 Technical Lead, Cairn India Project Gurgaon, India 11/2014 - 7/2015
 Eurasia Technical Team Manager Moscow, Russia 7/2014 - 11/2014
 Russia Technical Team Manager Moscow, Russia 12/2013 - 7/2014
 C&P Applied Engineering Manager Houston, TX 5/2013 - 12/2013
 Technical Sales Advisor, South Texas Houston, TX 9/2010 - 5/2013
 Principal Technical Services Specialist, PB Midland, TX 9/2007 - 9/2010
 Technical Professional Artesia, NM 2/2006 - 9/2007
 Associate Technical Professional Hobbs, NM 1/2005 - 2/2006

Robert's Machine Shop

Engine Cylinder Head Machinist Midland, TX 6/1999 - 12/2000

Oil & Gas Formation Experience

Permian Basin: Abo, Atoka, Bell Canyon, Blinberry, Bone Springs, Caballos, Canyon, Cherry Canyon, Cisco, Clearfork, Delaware, Devonian, Ellenberger, Fusselman, Glorietta, Grayburg, Mississippian, Morrow, Pennsylvanian, Queen, San Andres, Seven Rivers, Spraberry, Strawn, Vacuum, Wichita Albany, Wolfcamp, Yates, Yeso

South Texas: Austin Chalk, Eagle Ford, Olmos, Wilcox

Russia: Bazhenov, Domanik

Kazakhstan: Triassic, Jurassic

India: Felsic, Basalts, Fatehgarh

Azerbaijan: Fasila, Myakop

Argentina: Vaca Muerta

Recommendations

Dusterhoft R. Ron, <https://www.linkedin.com/in/dusterhoft-r-ron-07588619>, Technology Fellow at Halliburton

Dusterhoft R. worked with Timothy but on different teams

Timothy McNealy is an amazing problem solver and has worked on several challenging and difficult projects with very good and tangible results. His computer and software understanding is quite amazing and he has the capability to utilize many tools to tackle complex problems. For anyone needing a very good completions design and optimization engineer, I would highly recommend Timothy based on my experience working with him.

Billy Ray Smith, <https://www.linkedin.com/in/billy-ray-smith-92167b38>, former North America Technology Director at Halliburton

Billy Ray managed Timothy directly

I have worked with Timothy on several different occasions while at Halliburton. Tim's technical and problem solving capabilities are second to none. He also had the willingness to learn new skills and use those learnings to help clients. Tim would routinely use his technical abilities to demonstrate value to both internal and external clients which made him a valuable part of the team.
